INDUSTRIAL RIGGING COURSE MAXIMUM 6 STUDENTS PER CLASS

Prerequisite: Members must have Industrial Rigging Experience.

This course is not designed to teach a member how to be an Industrial Rigger but rather prepares the member to obtain the EPRI national industrial rigging certification. **Course participants must attend all classes and pass both a written examination and a practical hands on examination using a live crane and rigging materials, to receive the certification.**

A **5 hour pre class** will be offered before each regularly scheduled Rigging class to help those members who need remedial training with the extensive rigging math and basic use of rigging materials. **This class is not mandatory but is suggested for members who need additional assistance.** The pre class must have a minimum of 6 and maximum of 20 members per class and may include members not scheduled for the current rigging class.

**COST: \$40 (textbooks IPT Rigging Manual and UA Rigging manual)
Textbooks will be sold the first night. (Checks or cash only)**

COURSE LENGTH: 40 HOURS

(If course is not full (6 members) class will be cancelled.
